We connect departments!
Papers 10 – 15 minutes.

#studkon2020

Why is there a Student Conference and why should you sign up?

Our main vision is to support meetings of students in related fields, to offer experience, inspire each other, make new friendships and also get acquainted with the environment of beautiful historic Olomouc, which may be a place for further study for many participants. It offers opportunities not only for master's, but also for doctoral studies in the already mentioned fields (you can find more information on the department's website and Facebook pages: www.ksoc.upol.cz).

For curious students who are not satisfied with just a place in the audience, this is our Student Conference. Participants can try their hand at defense, find possible work imperfections or practice presentation skills. An indisputable benefit is also obtaining feedback from both participants and experts. In addition, participation in the conference can be excluded in the CV. In addition, a pleasant atmosphere is already an integral part of this event. This year, however, the conference will be held online, so we will try to get closer to this atmosphere, at least in a virtual environment.

What to present?

The student conference is not focused on a specific topic, but on the results of research conducted by students, e.g. the results of bachelor's, diploma or dissertation theses. However, you can also apply with your work in progress. For each paper, 10-15 minutes will be set aside, followed by a discussion.

Who has already visited us?

Last year was attended by participants from the Czech and Slovak Republics, namely students of Charles University, the University of West Bohemia in Pilsen, Palacky University in Olomouc, the University of Ostrava, the Czech Technical

University, Masaryk University and Comenius University in Bratislava.

Feedback guaranteed!

Every year, a student committee meets at the Student Conference, but also a professional committee composed of members of the department with a possible external expert from another university. Representatives of each of the disciplines sit in both commissions, and their role is mainly to provide feedback to conference participants and discussions on the topic. At the end of the conference, both commissions select the most interesting contributions, which are then rewarded.

This year, with regard to the results of last year's evaluations, we will focus more on providing feedback. Feedback will be given systematically after the end of the block, when we will create space for it. It will be up to you whether you want to get feedback from the point of view of an expert on a given topic, or also on presentation skills, etc. The feedback will take place without the presence of spectators and, of course, also on request.

When will be the Student Conference?

The sixth year of the Student Conference in Olomouc will be held on April 22th 2021 (in case of great interest, we are also ready for April 23, 2021). If you are writing a diploma or other thesis in one of the above-mentioned fields, do not be afraid and apply. If you know someone like that in your area, we will be happy if you tell them about the possibility of attending the conference. We would also be grateful to the supervisors of these works, or to other teachers for their willingness to consult with their students about the possibility of participating in our conference.

Where can I find more information?

It is also possible to look at the course of the last year on our Facebook page, where you will find the program, abstracts, photographs, as well as current information on the next year of the Student Conference: www.fb.com/ksakonference.

When will the registration run?

Registration for participants will start on February 14, 2021! Please note that registration for the conference is BINDING.

How long is it possible to register?

The deadline for registration is April 4, 2021!

How can I sign up?

By filling in the registration questionnaire, which you will find on the Student Conference Facebook page under the „Register“ button.

How can you contact us?

Should you have any questions, do not hesitate to contact us either through our Facebook page Student Conference KSA FF UPOL, where we add current information (we respond quickly to DM), or by email at the conference studentskakonferenceupol@gmail.com.
